### **About Tax Filing in Delaware**

All City of Delaware residents and resident businesses must file an annual return. The local income tax rate is 1.85 percent and applies to wages, salaries and other personal service compensation, and net profits of Delaware businesses.

The City provides residents a partial credit for taxes paid to another city. The credit is the lesser of .50 of the tax paid to the other city, or .00925 of the income taxed by the other city and Delaware.
