E. William Street Closed to Through Traffic August 24

DELAWARE – As part of the East William Street widening project, East William Street will close to traffic Saturday, August 24, between Lake Street and the Point, from 7 am to 5 pm.

During Saturday's activities, traffic will be detoured using Central Ave. and Lake Street, and residents with driveway access to William Street should park their vehicles on a side street. Access to businesses near Potter Street and Frank Street will be maintained from the Lake Street/William Street intersection. Access to ODOT, Stop-N-Go Storage and the City Public Works facility will be available via Foley Street.

Crews are installing a storm sewer line. This temporary closure will allow the contractor to work near the travel lanes without jeopardizing safety.

For information regarding this or other local roadway improvement and transportation projects, visit www.delawareohio.net/access-delaware.
