

**For Immediate Release:**  
February 4, 2016

## **East William Street Project Meeting Feb. 29**

Residents are invited to a neighborhood meeting on a East William Street improvement project. The meeting is in the Conger Elementary School Gymnasium, 10 Channing Street on February 29 from 5-7 pm.

### **Feb. 29, 2016 Public Meeting Invitation**

East William Street suffers congestion and numerous accidents and delays occur as a direct result of vehicles stopped in the through lane waiting to make left turns. The addition of a center turn lane would decrease delays from turning movements and reduce the amount of rear-end accidents. Also part of this project is improvements to the Lake Street-William Street intersection. Representatives from the City of Delaware, the Ohio Department of Transportation and the project consultant will attend. Construction is anticipated in summer of 2018.
