Traffic Signal Work to Impact Intersection

DELAWARE – City staff will be replacing traffic signal heads and associated wiring at the Sandusky Street-Lincoln Avenue intersection Wednesday, November 30 through Friday, December 2. The signal will not be functional during work activity and the intersection will be controlled by temporary stop signage and operate as an “All-Way Stop” intersection. Portable message boards and signage will be in place to alert motorists of the temporary intersection conditions. Public questions may be directed to the Customer Service Request Line at 740-203-1810.
