Margaret VanGundy's Opinion

Responded E Very satisfied

We have lived in Delaware county since 1978 on a farm SW of the city and are familiar with it's residence and community spirit. After building a new home within the city limits recently, we have had the opportunity to interact with city planning department and other city government officials. We are very pleased with their commitment to the community and willingness to work with residents to maintain and keep our city alive and well in this era. We are also pleased with the city's web site that we used to find and explore various aspects of building codes and structure of city government. Well Done Delaware! I love where I live.

Horrible infrastructure without any good plans, city income taxes that are horrible for families who have to work outside the city.

Responded B Dissatisfied

The traffic problem needs addressed. We have too much through traffic. We desperately need a bypass!

A good honest effort has been made to improve the city over the past decade. Although, it is obvious that certain parts of the city remain largely ignored such as the South side. Little progress has been made to make this end of the city more appealing. A police presence is there but the drug enforcement seems not existent as well as code enforcement.
