Do better with roads, especially Central Ave! Just start over!!
-  **Anonymous user's Opinion** Responded **B** Medium priority
I think we are in greater need of road repair, new access roads, and better snow plowing on residential streets than more recreation areas.

By offering better park play grounds it may inspire parents and children to seek outdoor activities which should improve physical health. On another note about Central avenue redo I would hope that the road from Union street to the point would be lifted and that concrete would be the base of the road which should increase the life of the road and reduce future repairs also. I use the South Section Line repair at 42 as a prime example of my suggestion which was done in that fashion due to the truck traffic. Repairs have been at a minimum since.

We have been visiting parks around down and so far the one that needs the most attention is the State Park at the Delaware Dam.
