How should the city of Delaware prioritize funding for parks?

A High priority **B** Medium priority **C** Low or not a priority

Anonymous user's Opinion

Responded **A** Low or not a priority

Our current parks are nice enough for now, especially considering how much funding it will take to fix long-standing traffic woes in Delaware, namely Central Ave. and The Point. Our roadways are extremely antiquated!

Anonymous user's Opinion

Responded **C** High priority

We go to the Dinosaur park/splash. It's very nice but it is so crowded now esp with all the busses coming. We need another splash pad with how busy this park is all the time. I've seen little ones get plowed over. It's not safe when there's that many kids that you can barely move or find your kid in a huge crowd.

Anonymous user's Opinion

Responded **B** Medium priority

Priority actually depends on the funding source. If it's grant money, then you use it for the intended purpose. If it's general revenue, then you would have to weigh park improvements against other needs.

Anonymous user's Opinion

Responded **B** Medium priority

Maintenance & upkeep of current parks should have a higher priority than new parks. Mulching, mowing, spraying for weeds & mosquitoes, equipment repair or replacement should come first before spending money on brand new locations that will eventually get ignored like the rest.
