What is a Citizen Police Academy?

The Citizen Police Academy is an extension of the Department's community education efforts. The purpose of the academy is to increase citizen awareness of the day to day operation of the police department by educating them on topics relative to the role of the police officer in our community.

The academy is not intended to make citizens into police officers, but to allow citizens to learn more about police operations. Citizens will become informed as to the actual role of the police and in return, police will benefit from the wealth of knowledge the citizens can give about their community.

The Citizen Police Academy is our opportunity to show how serious our commitment is to our community. It is our hope that the graduates of the Citizen Police Academy take their knowledge into the community, educate others when the opportunity arises and make decisions which affect the city and the police department with heightened awareness and better information.

What will I learn?

Instruction at the academy is done by police officers and certified police instructors. The curriculum and teaching methods are similar to the traditional police academy, however the sessions are not designed to train the academy participant as a police officer.

Students are instructed on such topics as:

- Criminal Law/Patrol Procedures
- Officer Safety/Self Defense
- Criminal Justice System
- Drug Investigation
- Traffic Stops
- Building Searches
- Criminal Investigation
- Domestic Violence
- Firearms Training

Students will participate in a four hour ride along program
